

# Flow Visualization with LIC method

---

00957016 高敬庭

## 完成內容

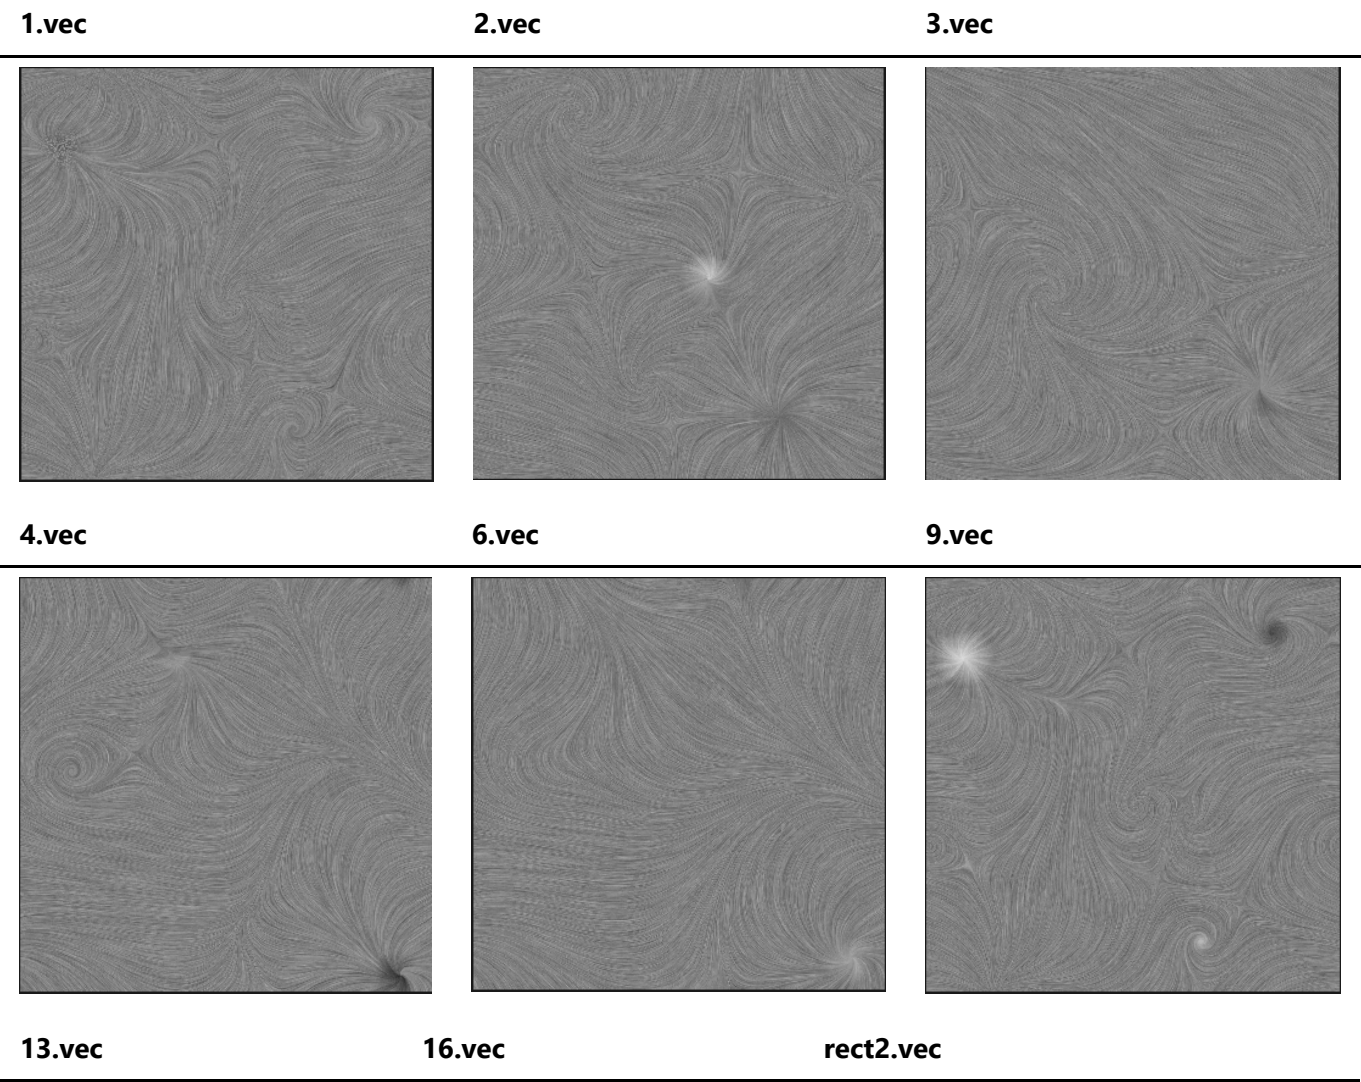

- LIC method using box filtering

## 已知問題

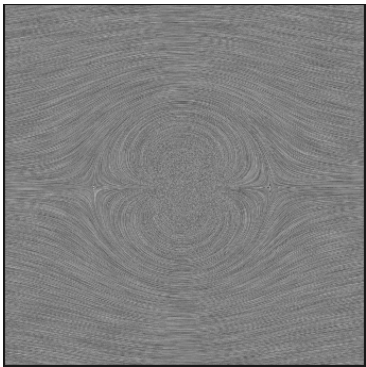

- 19.vec在trace streamline時因數值計算過大會出界
- test\_not\_unit.vec, test\_unit.vec, step5\_velocity.vec因為解析度過大，計算太慢無法產生
- rect2.vec結果不明顯

## 結果

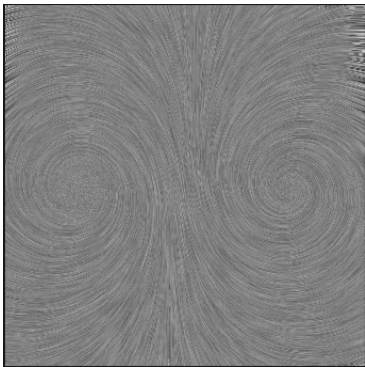

- $K = 50$

13.vec

16.vec

rect2.vec
